

Beyond the Button:

A Platform for Total Awareness

Valcom's wearable panic button isn't just an alert—it's a complete communication ecosystem that delivers clear, instant, actionable intel to every eye and ear on your team.

One press activates it all:

- Speakers & Horns** for urgent voice broadcasts
- LCD/LED Text Displays** for visual/audible messaging
- Room Level Accuracy** for faster accurate response
- Flashers/Strobes** for visual alarms
- Desktop Alerts** across workstations
- Mobile App** for push notifications

Power your facility with instant, coordinated communication.

Delivering clarity, control, and confidence in every emergency.
