

AC102 RFIC Keychain Card

The card is small in appearance, resistant to falling and waterproof, easy to carry, sensitive and sensitive. It is widely used in access control, parking, identity authentication and other wireless RF systems, suitable for Fanvil IP Door Phone products

Applicable models: i20S、i23S、i30、i31S、i32V、i33V

Features

- Small and exquisite appearance, sturdy and durable, no fading
- Product waterproof, anti-drop, anti-corrosion
- Can be hung on the keychain for easy carrying
- Non-contact RF interface
- The encryption algorithm conforms to the M1 standard.

Technical Parameters

- Size: 39.9*30.9*5.3mm
- IC: FM11RF08
- Operating frequency: 13.56MHz
- Working temperature: -20~50°C
- Data retention: ≥ 10 years
- Programming Cycles: $\geq 100,000$ times
- Read Distance: 0~100 mm
- EEPROM: 1024 byte
- Shell material: ABS

The above specifications may be updated in the future without prior notice. All hardware/software/physical features should be based on the final shipped products.
